EDUCATION & AWARDS

Product Design  
DIT Ireland  
2010 - 2013

Developed my skills in 3D modelling, design and model making for developing products to be mass produced, with specific emphasis on design engineering, ergonomics, materials and form.

Irelands Best Young Entrepreneur  
Best New Idea Category Offaly  
2015

Formed a business concept around a product line of premium desktop furniture that focused on creating more convenient methods of charging everyday devices quickly, conveniently and discretely know as Plynth. Succeeding in winning the Best New Idea category in IBYE Offaly which resulted in funding to further develop the concept.

New Frontiers Entrepreneur  
Development Programme AIT  
2015-2016

Following this, succeeded in entering the Enterprise Ireland programme known as New Frontiers to further develop the company based around the product, with emphasis on marketing, e-commerce, scalability and business strategy.

EXPERIENCE

Customer Experience & Creative  
Manager at Stor.supply  
May 2017 - December 2017

At Stór I had many responsibilities as a part of a two-man team. Primarily most customer-facing experiences and design work such as social media, marketing, website design, branding, packaging design as well as photography and business development.

Freelance Designer & Creative  
May 2015 - Present

Working as a freelance creative in a coworking space, that was backed by the local enterprise board, allowed me to expand my work experience into spaces that I had a lot of interest and curiosity in. This included, but was not limited to, website design, branding, social entrepreneurship, marketing, business strategy, video production and editing, 3D modelling and more.

Designer  
designhub / Junction Innovation  
Centre, Offaly  
May 2014 - December 2016

I got to work on a lot of projects such as 3D modelling, video and marketing for a company that went on to achieve investment from Dragon's Den. Branding and graphic design for a transition year business concept that went on to win a global prize in Moscow known as the Sage world cup. Being an assistant editor on a short film called Kubrick by Candlelight which is currently going through the festival circuit as well as many other smaller local projects.

Graphic Designer  
Hacketts Reprographics  
September 2013 - April 2014

During a period when I was also working in Wesley College as a dormitory master I worked as a graphic designer at Hackett Reprographics in the digital print space. Developing an understanding and skillset based around print, including packaging, leaflets, cards, menus, folders, etc. mainly for the architectural, real estate and legal industries.

Design Intern  
designhub  
June 2012 - September 2013

Began learning the basics of developing the entrepreneurial skills that come with being a self employed designer as well as the basics of industry standards. Designhub was a coworking space of designers and startups that fostered my interest in early stage businesses and their opportunities.

Volunteer  
Web Summit  
November 2014

Volunteered with the startup and admin teams at Web Summit.
